

Enhanced Early Detection Oral Cancer Examination

Consent Form

Our practice continually looks for advances to ensure that we are providing the optimum level of oral health care to our patients. We are concerned about oral cancer and look for it in every patient.

One American dies every hour from oral cancer. Late detection of oral cancer is the primary cause that both the incidence and mortality rates of oral cancer continue to increase. As with most cancers, age is the primary risk factor for oral cancer. Tobacco and alcohol use are other major predisposing risk factors but **more than 25% of oral cancer victims have no such lifestyles risk factors.** Studies also suggest that human papillomavirus (HPV 16/18) plays a role in more than 20% of oral cancer cases. Oral cancer risk by patient profile is as follows:

Increased risk: Patients ages 18-39

-sexually active patients (HPV 16/18)

High risk: Patients age 40 and older; tobacco users (ages 18-39, any type within 10yrs)

Highest risk: Patients age 40 and older with lifestyle risk factors (tobacco and/or alcohol use): previous history of oral cancer

We have incorporated Enhanced Early Detection Oral Cancer Exam into our oral cancer screening standard of care. Using this technique along with a standard oral cancer examination improves the ability to identify suspicious areas at their earliest stages. Enhanced Early Detection Oral Cancer Exam is similar to proven early detection procedures for other cancers such as mammography, Pap smear, and PSA. It is a simple and painless examination that gives the best chance to find any oral abnormalities at the earliest possible stage. Early detection of pre-cancerous tissue can minimize or eliminate the potentially disfiguring effects of oral cancer and possibly save your life. This exam will be offered to you annually.

This enhanced examination is recognized by the American Dental Association code revision committee as CDT-2007/08 procedure code D0431; however, the fee for this exam might not be covered by your insurance and is therefore due on the day of service. The fee for this enhanced examination is \$50.

No I would prefer not to have the Enhanced Early Detection Oral Cancer Exam at this time.

Yes I do want to have this exam performed today.
